

GOOGLE REVIEWS

After finding NC Grading and Excavating through a Google search I contacted them through their web page. I was answered within hours even though it was Labor Day Weekend. Two days after my initial contact Peter came over to give me a quote on re-grading and re-graveling my driveway. His quote was very reasonable so I decided to have him do the work. Two days after Peter gave me the quote he was here bright and early to do the job. By the time I got home from work my driveway looked amazing. I do not have a single complaint about the work he did. The driveway is pristine, the price was reasonable, he didn't leave a mess of any kind, and he was very professional while remaining personable. I definitely plan to use him for future projects and would recommend him without reservation.
